

BBC

Young people and prejudice survey

METHODOLOGY NOTE

ComRes interviewed 1,001 GB adults aged between 18 and 24 online between 7th and 17th June 2013. Data were weighted to be representative of all GB adults aged 18-24 by age and gender. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

Q.13 To what extent do you agree or disagree with each of the following statements?

Summary Table

Base: All respondents

	Overall, immigration is good for Britain	I would prefer there to be less immigration into Britain than there is at present	Immigration into Britain leads to greater unemployment among British nationals	Immigrants in the UK do jobs that British nationals do not want to do	Immigrants in the UK generally work harder than people born here	Immigration leads to increased tension between different groups	The crime rate is higher in areas of Britain where there is a large immigrant population	Immigration leads to economic growth and innovation	If current levels of immigration are maintained, I expect to see race riots in the near future

**Q.15 Now thinking about the Muslim community specifically, to what extent do you agree or disagree with each of the following statements?
Summary Table**

Base: All respondents

	The Muslim community in the UK is doing enough to combat extremism in their communities	The Muslim community in Britain does not share the same values as people in the rest of the country	Islam is an inherently peaceful religion	The Muslim community is no more extremist than other communities, as shown by the IRA	The recent attack on a UK soldier in Woolwich by two Muslim men is an example of some members of a group taking extreme and uncharacteristic action.

Q.24 Many thanks for your time. All of your answers are strictly anonymous, and your views will not be attributed to you. As part of their programme, the BBC would like to talk to some young people about their views on some of the issues explored in this survey. Would you be happy for your details to be passed to the BBC so that they may contact you about a possible interview?
