### Councillors Survey January 2013 - Development Intelligence

**Q6 - The National Planning Policy Framework (NPPF) was published in early 2012 as a key part of the Government's reforms which aim to make the planning system less complex and more accessible, to protect the environment and to promote sustainable growth.**

**To what extent to you agree or disagree with each of the following statements?**

**Increased development in my local area would be a good thing because we urgently need to promote economic growth.**

### Councillors Survey January 2013 - Development Intelligence

**Q6 - The National Planning Policy Framework (NPPF) was published in early 2012 as a key part of the Government's reforms which aim to make the planning system less complex and more accessible, to protect the environment and to promote sustainable growth.**

**To what extent do you agree or disagree with each of the following statements?**

#### Summary table

Base: All respondents

Significance Level: 90%

Significance Level: 95%

The Government's planning changes will put too much power in the hands of developers at the expense of local people.

I would be prepared to support a development which promised to deliver economic benefit, even if there was vocal opposition in my area against the development.

The changes the Government is making to the planning regime are making the process more confusing.

Increased development in my local area would be a good thing because we urgently need to promote economic growth.

The NPPF will cause more harm than good.

The introduction of the NPPF has made the planning process more simple and accessible for residents and businesses in my local area.
