**Q4. Gross Domestic Product (GDP) is the sum of all goods and services produced in the economy. This year, the Government's total spend (on things such as public services, paying off debt and running the government) came to 43% of Britain's GDP. All of the Government's spending is paid for by collecting taxes and borrowing money. What proportion of the nation's income do you think the Government should be aiming to spend?**
