

## Scottish Survey on Nuclear Power

1. The Scottish Executive has set targets that, by 2020, 100% of electricity consumed in Scotland should come from renewable sources (for example hydroelectric, tidal power, wave power or wind power).

Do you think that Scotland should shut all its nuclear power plants and just use renewable energy sources, even if it means buying energy from abroad to meet Scotland's energy demands?

	Total	Gender		Age					Social Grade		Scottish Region

## Scottish Survey on Nuclear Power

### 2. Would you be willing to pay more for your energy in order to guarantee that it came from renewable sources, or not?
