Gay Marriage

Q.1 In his speech at the Conservative Party Conference, this month, Prime Minister, David Cameron publicly endorsed gay marriage stating: "We're consulting on legalising gay marriage. To anyone who has reservations, I say: Yes, it's about equality, but it's also about something else: commitment. Conservatives believe in the ties that bind us - that society is stronger when we make vows to each other and support each other. So I don't support gay marriage despite being a Conservative. I support gay marriage because I'm a Conservative. Do you support or oppose the Government's proposal to legalise same-sex marriage?"
