Q.3 Thinking about how best to tackle drug and alcohol abuse among young people in the UK, to what extent do you agree with the following statements?

Summary

Base: All respondents

	Statements				
	Schools provide adequate education to children and young people about drugs and alcohol	Schools are not doing enough to prevent drug and alcohol use in schools	The responsibility for tackling drug and alcohol abuse among young people lies exclusively with parents rather than with schools or the government	The government is proactive in tackling underage drinking and illegal drug use	Generally, parents I know are not confident in giving advice to their children on drugs and alcohol
