

CARE – 3-Parent Embryo Survey

METHODOLOGY NOTE

ComRes interviewed 2,031 GB adults online between 12th and 13th February 2014. Data were weighted to be representative of all GB adults aged 18+. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

To commission a voting intention poll or a public opinion survey please contact Andrew Hawkins: andrew.hawkins@comres.co.uk

To register for Pollwatch, a monthly newsletter update on the polls, please email: pollwatch@comres.co.uk

3 Parent Embryo Survey

ONLINE Fieldwork : 12th-13th February 2014

Absolutes/col percents

Table 1
Q.1 Currently the creation of 3 parent embryos is not permitted by British law. Some people, including the Coalition Government, support a change in the law as it may help prevent hereditary diseases, others oppose a change due to the unknown impact on public safety and wider ethical concerns about the genetic modification of future generations. To what extent would you support or oppose a change in the law to permit the creation of 3 parent embryos?
Base: All respondents

Table 2

Q.2 Does being informed of each of the following make you more or less likely to support legalising the creation of 3-parent embryos, or does it make no difference?
Summary Table

Base: All respondents

	No other nation in the world has legalised the creation of 3 parent embryos	More than 40 countries - including France and Germany - expressly prohibit the practices in question, as does the Council of Europe Convention on Biomedicine	The procedure might help reduce the conception of children with some hereditary diseases	A number of scientists in the UK and abroad have expressed concerns about the safety of the procedures for the children conceived and any children they might go on to have	The resulting child would receive DNA from the mother requesting treatment which would not be the case had the child been conceived using a donor egg
Unweighted base	2031	2031	2031	2031	2031
Weighted base	2031	2031	2031	2031	2031
