Thames Tunnel London Survey

Online Fieldwork Dates: 24th May - 3rd June 2012

Absolutes/col percents

Table 19

I'm now going to read a short description of the Thames Tunnel. The Thames Tunnel would be a sewer running from Acton in west London to Stratford in east London. The tunnel would broadly follow the River Thames and be up to 67 metres deep. It would capture sewage and rainwater that normally overflow into the River, and would transfer this sewage and rainwater to Beckton Sewage Treatment Works instead.

With this in mind, to what extent do you support or oppose the proposal to build the Thames Tunnel in London? Do you ...
