

London Assembly – Tuberculosis (TB) in London Survey

METHODOLOGY NOTE

ComRes interviewed 1,006 London adults online between 14th and 20th August 2015. Data were weighted to be representative of all adults in London aged 18+ by age, gender and area. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

To commission a voting intention poll or a public opinion survey please contact Katharine Peacock: katharine.peacock@comres.co.uk

To register for Pollwatch, a monthly newsletter and update on the polls, please email: pollwatch@comres.co.uk

Q7. What impact, if any, would each of the following have on how likely or unlikely you are to get tested or screened for TB?

Base: All respondents

Summary table

		If I could be tested at home or my place of work	If I knew more about the disease	If I knew more about how the TB test works	If I could get results on the same day	If someone I trusted told me to get tested	If other people were unable to find out what I was being tested for	If it was offered as part of a routine health check with a GP	If I had not previously been vaccinated against TB
