Q. The Windrush scandal concerned people who were wrongly detained, denied legal rights, threatened with deportation, and, in some cases, wrongly deported from the UK, despite being either born in the UK or arriving in the UK before 1973, particularly from the Caribbean and other Commonwealth countries. Anyone who had arrived in the UK from a Commonwealth country before 1973 was granted an automatic right permanently to remain and, since the right was automatic, many people in this category were never given, or asked to provide, documentary evidence of their right to remain at the time or over the next forty years, during which, many continued to live and work in the UK. Q. The Windrush scandal concerned people who were wrongly detained, denied legal rights, threatened with deportation, and, in some cases, wrongly deported from the UK, despite being either born in the UK or arriving in the UK before 1973, particularly from the Caribbean and other Commonwealth countries. Anyone who had arrived in the UK from a Commonwealth country before 1973 was granted an automatic right permanently to remain and, since the right was automatic, many people in this category were never given, or asked to provide, documentary evidence of their right to remain at the time or over the next forty years, during which, many continued to live and work in the UK. Which of the following statements is closest to your view regarding the Windrush scandal?
