

Remain United, Election Poll – 29 November 2019

Methodology: Savanta ComRes interviewed 2,007 British adults online from the 27th to 28th November 2019. Data were weighted to be demographically representative of all GB adults. All questions were also weighted by 2017 past vote recall and EU Referendum past vote. Voting Intention is also weighted by likelihood to vote. Savanta ComRes is a member of the British Polling Council and abides by its rules. Full tables at www.comresglobal.com

TV1. Suppose your favoured party did not have a realistic chance of winning in your constituency. Some people may choose to vote tactically to prevent their least favoured party from winning, while others will choose to vote for their favoured party anyway. On a scale of 0 to 10, where 0 means certain NOT to vote tactically, and 10 means certain to vote tactically, how likely would you be to vote tactically in that situation?
