Methodology: Savanta ComRes interviewed 2,034 British adults online from the 25th to 26th November 2019. Data were weighted to be demographically representative of all GB adults. All questions were also weighted by 2017 past vote recall and EU Referendum past vote. Voting Intention is also weighted by likelihood to vote. Savanta ComRes is a member of the British Polling Council and abides by its rules. Full tables at www.comresglobal.com

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.
