QCVIMQ62. The UK will now leave up to 12 weeks between the first and second doses of the Coronavirus vaccine, rather than giving both within 21 days as was originally planned. Some have expressed concerns at the delay between the two doses, with some concerns over the effectiveness of the second dose one of the UK's two approved vaccines after that period of time, as well as uncertainty regarding vaccine supply levels after a 12-week window. However, the UK's chief medical officers say that the first dose of the vaccine is the most important for protection against Coronavirus, and it is more important to vaccinate more people with one dose, than fewer people with both. To what extent does or does not the decision to delay the second dose of the vaccine from 21 days to 12 weeks concern you? .....	347

## Political Tracker January 2021

**QCVIMQ22. Summary: While the UK government continues to assist people and businesses during the coronavirus pandemic some are suggesting that, once the crisis is over or sooner, the government will need to introduce new measures in order to generate income to offset the increased spending that it is incurring at the moment. To what extent do you support or oppose each of the following in order to stabilise these coronavirus-incurred debts?**

**QCVIMQ22\_4. Raising VAT: While the UK government continues to assist people and businesses during the coronavirus pandemic some are suggesting that, once the crisis is over or sooner, the government will need to introduce new measures in order to generate income to offset the increased spending that it is incurring at the moment. To what extent do you support or oppose each of the following in order to stabilise these coronavirus-incurred debts?**

## Political Tracker January 2021

**QCVIMQ55. Due to the urgency of the COVID-19 pandemic, developing the COVID-19 vaccine has been a priority for the healthcare sector. Despite still passing through all the regular checks and approvals, including from the UK's vaccine regulatory body, it has been developed and will be distributed faster than a traditional vaccine. To what extent are you comfortable or uncomfortable with the COVID-19 vaccine having been developed, checked and distributed at a faster pace than normal?**

**QCVIMQ62. The UK will now leave up to 12 weeks between the first and second doses of the Coronavirus vaccine, rather than giving both within 21 days as was originally planned. Some have expressed concerns at the delay between the two doses, with some concerns over the effectiveness of the second dose one of the UK's two approved vaccines after that period of time, as well as uncertainty regarding vaccine supply levels after a 12-week window. However, the UK's chief medical officers say that the first dose of the vaccine is the most important for protection against Coronavirus, and it is more important to vaccinate more people with one dose, than fewer people with both. To what extent does or does not the decision to delay the second dose of the vaccine from 21 days to 12 weeks concern you?**
