

Political Poll – 25 November 2020

Savanta ComRes interviewed 2,090 UK adults aged 18+ online between 20 – 22 November 2020. Data were weighted to be representative of United Kingdom adults by age, gender, region, ethnicity and socio-economic characteristics including social grade. Savanta ComRes is a member of the British Polling Council and abides by its rules. Full tables at www.comresglobal.com.

All press releases or other publications must be checked with Savanta ComRes before use. Savanta ComRes requires 48-hours to check a press release unless otherwise agreed.

Q1. Chancellor Rishi Sunak is expected to announce a public sector pay restraint policy, where public sector pay increases will be capped at or below the level of inflation. In real terms, that would mean public sector pay would not rise for the period of the cap. The policy would affect teachers, police officers, civil servants and the armed forces, but would not affect doctors and nurses. To what extent do you support or oppose this policy?	1
BASE: All respondents	
Q2. Frontline NHS staff, such as doctors and nurses, would be exempt from the capped pay increases, but other public sector workers would not. To what extent do you think this is fair or unfair?	3
BASE: All respondents	
Q3. Supporters of the policy argue that public sector workers do not deserve an above-inflation pay increase at the moment because many of those in the private sector are facing wage freezes, pay reductions and redundancy due to the pandemic. Opponents of the policy say that public sector workers do deserve an above-inflation pay increase because they have been historically underpaid and they have "more than earned" such an increase during the pandemic. Which of the following is closest to your view?	5
BASE: All respondents	
Q4. A report from a leading think tank suggests a three-year public sector pay freeze would save as much as £23 billion for the Government. To what extent do you think that a three-year public sector pay freeze is or is not worth it?	7

Q3. Supporters of the policy argue that public sector workers do not deserve an above-inflation pay increase at the moment because many of those in the private sector are facing wage freezes, pay reductions and redundancy due to the pandemic. Opponents of the policy say that public sector workers do deserve an above-inflation pay increase because they have been historically underpaid and they have "more than earned" such an increase during the pandemic. Which of the following is closest to your view?

Q3. Supporters of the policy argue that public sector workers do not deserve an above-inflation pay increase at the moment because many of those in the private sector are facing wage freezes, pay reductions and redundancy due to the pandemic. Opponents of the policy say that public sector workers do deserve an above-inflation pay increase because they have been historically underpaid and they have "more than earned" such an increase during the pandemic. Which of the following is closest to your view?
