

Topical Questions – w/c 25 January 2021

Savanta ComRes interviewed 2,070 UK adults online from the 22 to 24 January 2021. Data were weighted to be demographically representative of all UK adults. Data were weighted to be representative of UK adults aged 18+ by age, gender, region and other socio-economic characteristics. Savanta ComRes is a member of the British Polling Council and abides by its rules. Full tables at www.comresglobal.com.

All press releases or other publications must be checked with Savanta ComRes before use. Savanta ComRes requires 48-hours to check a press release unless otherwise agreed.

QCVIMQ58. The Government has set a target to offer vaccination slots to 15 million in the top four priority groups to receive the Coronavirus vaccine - including all over-80s - by 15 February. To what extent do you feel confident or unconfident that they will hit this target? BASE: All respondents	1
QCVIMQ59. Thinking about the penalties given for people who break Coronavirus rules during lockdown, to what extent do you think they are too tough, too soft or about right? BASE: All respondents	4
QCVIMQ60. And thinking again about the penalties given for people who break Coronavirus rules during lockdown, to what extent do you think they are well or poorly enforced? BASE: All respondents	7
QCVIMQ54. Now a Covid-19 vaccine has been approved by the UK regulator, how keen or reluctant are you to receive the vaccine? BASE: All respondents	10
QCVIMQ55. Due to the urgency of the COVID-19 pandemic, developing the COVID-19 vaccine has been a priority for the healthcare sector. Despite still passing through all the regular checks and approvals, including from the UK's vaccine regulatory body, it has been developed and will be distributed faster than a traditional vaccine. To what extent are you comfortable or uncomfortable with the COVID-19 vaccine having been developed, checked and distributed at a faster pace than normal? BASE: All respondents	13
QCPRW45Q22. The UK will now leave up to 12 weeks between the first and second doses of the Coronavirus vaccine, rather than giving both within 21 days as was originally planned. Some have expressed concerns at the delay between the two doses, with some concerns over the effectiveness of the second dose one of the UK's two approved vaccines after that period of time, as well as uncertainty regarding vaccine supply levels after a 12-week window. However, the UK's chief medical officers say that the first dose of the vaccine is the most important for protection against Coronavirus, and it is more important to vaccinate more people with one dose, than fewer people with both. To what extent does or does not the decision to delay the second dose of the vaccine from 21 days to 12 weeks concern you? BASE: All respondents	16
QCPRW45Q23. There are due to be local elections in England, as well as devolved elections in Scotland, Wales and London, in May this year. Some say that the elections should go ahead as planned, but others say that they should be postponed due to the pandemic. Which of the following is closest to your view? BASE: All respondents	19
QCPRW45Q24. The Government is said to be thinking of policies to encourage people to get Coronavirus tests, with some statistics saying that less than one in five people with symptoms take a test due to fears that a positive test result could stop people from working. One such policy idea is to give people a monetary sum in order to cover their isolation period if they test positive. Using the slider below, please indicate what you think would be a fair amount for the Government to give people if they test positive for coronavirus, in order to financially cover their isolation period (at least 10 days from when a test was taken). BASE: All respondents	22
QCPRW45Q25. Summary: A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	28
QCPRW45Q25_1. Euro 2020 (June, held across 12 countries): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	29
QCPRW45Q25_2. Wimbledon (June-July, held in London): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	32
QCPRW45Q25_3. Olympic Games (July-August, in Tokyo, Japan): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	35
QCPRW45Q25_4. BBC Proms (July-September, in London): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	38
QCPRW45Q25_5. London Pride (Summer, in London): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	41
QCPRW45Q25_6. London Marathon (October, in London): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	44
QCPRW45Q25_7. United Nations Climate Change Conference (November, in Glasgow): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	47
QCPRW45Q25_8. The Queen's Platinum Jubilee Celebrations (June 2022, in London): A decision was made this Thursday (21st January) to cancel Glastonbury Festival for 2021 due to the pandemic. The festival was also cancelled last year. To what extent do you think it is likely that the following events will go ahead with spectators, without spectators, or be postponed for a later date completely? BASE: All respondents	50

QCPRW45Q26. Which of the following do you hold most responsible for the rise in Coronavirus cases in 2021?	53
BASE: All respondents	
QCPRW45Q27. When do you think that all coronavirus restrictions will be lifted in the UK? Sometime in... ..	56
BASE: All respondents	
QCPRW45Q28. Local authorities in England will be permitted to increase council tax by up to 5% from April in order to raise funds for local councils to continue to provide services. Some say that the council tax rise will raise extra funds for critical services, but others say that the burden should not be placed on tax rises to raise these funds, and the money should be made available from central Government. To what extent do you support or oppose local authorities being able to raise council tax by up to 5% in April?	62
BASE: All respondents	
QCPRW45Q29. How many hours in a given week do you think an employer should ask their employees to work if they are employed full-time?	65
BASE: All respondents	

QCVIMQ58. The Government has set a target to offer vaccination slots to 15 million in the top four priority groups to receive the Coronavirus vaccine - including all over-80s - by 15 February. To what extent do you feel confident or unconfident that they will hit this target?

QCVIMQ55. Due to the urgency of the COVID-19 pandemic, developing the COVID-19 vaccine has been a priority for the healthcare sector. Despite still passing through all the regular checks and approvals, including from the UK's vaccine regulatory body, it has been developed and will be distributed faster than a traditional vaccine. To what extent are you comfortable or uncomfortable with the COVID-19 vaccine having been developed, checked and distributed at a faster pace than normal?

QCPRW45Q22. The UK will now leave up to 12 weeks between the first and second doses of the Coronavirus vaccine, rather than giving both within 21 days as was originally planned. Some have expressed concerns at the delay between the two doses, with some concerns over the effectiveness of the second dose one of the UK's two approved vaccines after that period of time, as well as uncertainty regarding vaccine supply levels after a 12-week window. However, the UK's chief medical officers say that the first dose of the vaccine is the most important for protection against Coronavirus, and it is more important to vaccinate more people with one dose, than fewer people with both. To what extent does or does not the decision to delay the second dose of the vaccine from 21 days to 12 weeks concern you?

QCPRW45Q22. The UK will now leave up to 12 weeks between the first and second doses of the Coronavirus vaccine, rather than giving both within 21 days as was originally planned. Some have expressed concerns at the delay between the two doses, with some concerns over the effectiveness of the second dose one of the UK's two approved vaccines after that period of time, as well as uncertainty regarding vaccine supply levels after a 12-week window. However, the UK's chief medical officers say that the first dose of the vaccine is the most important for protection against Coronavirus, and it is more important to vaccinate more people with one dose, than fewer people with both. To what extent does or does not the decision to delay the second dose of the vaccine from 21 days to 12 weeks concern you?

QCPRW45Q24. The Government is said to be thinking of policies to encourage people to get Coronavirus tests, with some statistics saying that less than one in five people with symptoms take a test due to fears that a positive test result could stop people from working. One such policy idea is to give people a monetary sum in order to cover their isolation period if they test positive. Using the slider below, please indicate what you think would be a fair amount for the Government to give people if they test positive for coronavirus, in order to financially cover their isolation period (at least 10 days from when a test was taken).

The Government is said to be thinking of policies to encourage people to get Coronavirus tests, with some statistics saying that less than one in five people with symptoms take a test due to fears that a positive test result could stop people from working. One such policy idea is to give people a monetary sum in order to cover their isolation period if they test positive. Using the slider below, please indicate what you think would be a fair amount for the Government to give people if they test positive for coronavirus, in order to financially cover their isolation period (at least 10 days from when a test was taken).

QCPRW45Q28. Local authorities in England will be permitted to increase council tax by up to 5% from April in order to raise funds for local councils to continue to provide services. Some say that the council tax rise will raise extra funds for critical services, but others say that the burden should not be placed on tax rises to raise these funds, and the money should be made available from central Government. To what extent do you support or oppose local authorities being able to raise council tax by up to 5% in April?
