

SPUC – Public Polling – 7 January 2021

Savanta ComRes interviewed 1,042 Scottish adults aged 18+ online between 16 – 23 December 2020. Data were weighted to be representative of Scottish adults by age, sex and region. Savanta ComRes is a member of the British Polling Council and abides by its rules. Full tables at www.comresglobal.com.

All press releases or other publications must be checked with Savanta ComRes before use. Savanta ComRes requires 48-hours to check a press release unless otherwise agreed.

For information about commissioning research please contact info@comresglobal.com or call +44 (0)20 7871 8660

To register for Pollwatch, featuring commentary and insight from the Savanta ComRes team, please email: pollwatch@comresglobal.com

Table of Contents

S1. Are you...? BASE: All respondents	1
S2. How old are you? BASE: All respondents	4
S3b. In which region in Scotland do you live? BASE: All respondents	7
S4. Which religious group, if any do you consider yourself belonging to? BASE: All respondents	10
S5. Do you have any children aged 18 or under? If so, how old are they? BASE: All respondents	13
Q1. When a woman has an abortion, which of the following factors would you say is the most important consideration? BASE: All respondents	16
Q2. How concerned, if at all, are you about women undergoing this procedure at home? BASE: All respondents	19
Q3. A medical abortion at home, which is currently allowed up to ten weeks into the pregnancy, will usually involve women disposing of the terminated pregnancy either into the toilet or sanitary pads. How concerned, if at all, are you about women finding this distressing? BASE: All respondents	22
Q4. Risks of complications from medical abortions increase with gestational age (i.e. the further into the pregnancy a woman is). How concerned, if at all, are you about women having a medical abortion past the legal limit of ten weeks into gestation? BASE: All respondents	25
Q5. With a telemedicine abortion appointment, the doctor never sees the woman in person. How concerned, if at all, are you about each of the following considerations: Summary table BASE: All respondents	28
Q5_1. The possibility of abortion pills being falsely obtained for another person: With a telemedicine abortion appointment, the doctor never sees the woman in person. How concerned, if at all, are you about each of the following considerations? BASE: All respondents	29
Q5_2. Women being at risk of being coerced into an abortion by a partner or family member: With a telemedicine abortion appointment, the doctor never sees the woman in person. How concerned, if at all, are you about each of the following considerations? BASE: All respondents	32
Q5_3. Women being at risk of unwanted abortion arising from domestic abuse by partners controlling or monitoring their actions: With a telemedicine abortion appointment, the doctor never sees the woman in person. How concerned, if at all, are you about each of the following considerations? BASE: All respondents	35
Q6. The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following: Summary table BASE: All respondents	38
Q6_1. It is concerning that callers giving false information can easily obtain abortion drugs: The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following? BASE: All respondents	39
Q6_2. Staff at abortion providers need to ensure that they are collecting correct medical and personal information to certify a woman for a home abortion: The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following? BASE: All respondents	42
Q6_3. It is important that checks are put in place to ensure women being certified for abortion meet the legal criteria: The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following? BASE: All respondents	45

Q6. The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following: Summary table

BASE: All respondents

Significance Level: 95%

It is concerning that callers giving false information can easily obtain abortion drugs

Staff at abortion providers need to ensure that they are collecting correct medical and personal information to certify a woman for a home abortion

It is important that checks are put in place to ensure women being certified for abortion meet the legal criteria

SPUC - Public Polling December 2020: Scotland

Q6_1. It is concerning that callers giving false information can easily obtain abortion drugs: The investigation found that abortion providers had sent abortion drugs to women who had given false personal information (for example, name, address or claimed gestation). To what extent do you agree or disagree about each of the following?

BASE: All respondents
