Q.2 How far do you agree or disagree with the following statements?

Summary

Base: All respondents

		I believe that Christians are a negative force in society.	When I meet somebody new, I assume that they hold no religious beliefs unless they tell me otherwise.	When I know that someone is a Christian, I find it harder to talk to them.	I would be more likely to trust a person with no religious beliefs than a Christian.	I would be cautious about leaving my children in the care of a Christian.	I would have more fun socialising with a Christian than an atheist.	I think that being an atheist or non-religious is more normal than being a Christian.	Overall, I have had a positive experience of Christians and Christianity.	I feel comfortable discussing my religious beliefs with people at work.	Christians are more tolerant than other people.
