	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

Q18a_3. MEND: For the following groups, to what extent do you feel that they do or do not represent British Muslims:

BASE: All Muslim respondents

	Extreme views											
	Total	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately

	Extreme views											
	Muslims are systematically targeted in the UK and globally	British culture is under threat from invasion	Democracy is broken, and we should replace it completely	Conflict between the West and Islam would be a good thing	People should be prepared to go out and fight to defend their religion or culture with force	Engaging with non-Muslim institutions, like UK politics, means you are a traitor to Islam	There are no-go areas in Britain where Sharia law dominates	All Muslims should strive to create a unified Islamic caliphate	All Brits should strive to ensure our country is white	Jewish people have used the Holocaust to their advantage	Cultures should live separately
