**QCVIMQ17\_2. Scrapping the pensions 'triple lock', where the state pension rises each year based on the higher out of inflation, average earnings or a minimum 2.5%: While the UK government continues to assist people and businesses during the coronavirus pandemic some are suggesting that, once the crisis is over or sooner, the government will need to introduce new measures in order to generate income to offset the increased spending that it is incurring at the moment. To what extent do you support or oppose each of the following in order to stabilise these coronavirus-incurred debts?**
