	It seems easier for extremely rich foreign nationals to get permission to live in the UK than it is for ordinary people from other countries trying to make a living...	The Government should introduce a community scheme so that volunteers can be put in touch with new immigrants, in order help people settle here	The Government should use public (taxpayers') money to increase funding for English language classes for both new immigrants and for people already living in Britain	I would be happy to be more involved in welcoming immigrants to this country through something like a community scheme to help people settle here	All new immigrants should be required either to speak English or agree to enrol on a compulsory English course, as a condition of entry	It should be made a compulsory requirement for all state schools to teach pupils at least one language other than English to a competent level
