

# UK Onshore Oil and Gas – public awareness and perceptions of natural gas

## METHODOLOGY NOTE

ComRes interviewed 2,007 GB adults online between 27<sup>th</sup> and 29<sup>th</sup> November 2015. Data were weighted to be representative of all GB adults aged 18+.

ComRes is a member of the British Polling Council and abides by its rules.

*All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.*

To commission a voting intention poll or a public opinion survey please contact Katharine Peacock: [katharine.peacock@comres.co.uk](mailto:katharine.peacock@comres.co.uk)

To register for Pollwatch, a monthly newsletter update on the polls, please email: [pollwatch@comres.co.uk](mailto:pollwatch@comres.co.uk)

## Natural Gas Survey

### ONLINE Fieldwork: 27th-29th November 2015

Absolutes/col percents

Table 1

**Q.1 The next few questions will be on energy. Thinking about sources of energy, please rank the following in order of how much of the UK's total energy (including electricity, heat, transport and industry), is currently estimated to come from each one from 1=most, down to 9=least?**

## Natural Gas Survey

### ONLINE Fieldwork: 27th-29th November 2015

Absolutes/col percents

Table 15  
**Q.5 For each of the following statements on energy use and climate change, please select to what extent, if at all, you agree or disagree.**  
**Summary**  
**Base: All respondents**

	Statements					
	I feel well-informed about the causes of climate change	I am actively taking measures to reduce the amount of energy I use at home	Reducing the cost of energy should be prioritized over environmental concerns	I am personally concerned that the UK's energy supply is not secure enough to keep the lights on over the coming winters	We should prioritise using gas produced in the UK, including shale gas produced by hydraulic fracturing, over energy imported from overseas	Natural gas has a role to play in helping the UK to become a low carbon economy

## Natural Gas Survey

### ONLINE Fieldwork: 27th-29th November 2015

Absolutes/col percents

Table 28

**Q.8 In the year 2000 all natural gas used in the UK was produced here; since then the UK has started to import gas. In 2014 what proportion of gas used in the UK do you think was produced here, and what proportion do you think was imported from overseas?**

**Imported from overseas**

**Base: All respondents**
